“Da oltre 35 anni al fianco degli ottici” For over 35 years by the optician's side”

Fondata nel 1987, **Kontakt Lens è oggi un'azienda di riferimento** nella ricerca e nello sviluppo di lenti a contatto di alta qualità, progettate **per rispondere alle esigenze specifiche di ottici e optometristi**.

Eccellenza applicativa: fornire ai centri ottici lenti a contatto che garantiscano le migliori performance, in linea con le diverse necessità dei clienti.

Tutela professionale: sviluppare marchi esclusivi che valorizzino e proteggano il lavoro dei centri ottici, offrendo soluzioni che li difendano dalla concorrenza e dalla distribuzione online.

Founded in 1987, **Kontakt Lens is a leading company** in the research and development of high-quality contact lenses, designed **to meet the specific needs of opticians and optometrists**.

Fitting Excellence: Providing optical centers with contact lenses that deliver top performance, tailored to the diverse requirements of their clients.

Professional Safeguard: Developing exclusive brands that enhance and safeguard the work of optical centers, offering solutions that shield them from competition and, in particular, from online sales.

NEW PRODUCT

Monouso Plus (100/360ml)

Appositamente studiata per lenti a contatto a ricambio frequente. In una unica azione deterge, risciacqua, disinfetta, idrata e conserva. Attiva in cinque minuti.

Specific for disposable contact lenses. It cleanses, rinses, disinfects, hydrates and preserves in a single action. Active in five minutes.

Unica Plus (360/500ml)

Testata con tutti i tipi di lenti a contatto morbide. Rimuove i depositi mucoproteici, disinfetta, risciacqua e conserva. Attiva in cinque minuti.

Tested with all types of soft contact lenses. Removes protein deposits, disinfects, rinses and preserves. Active in five minutes.

Hyalu Sol (100/360ml)

Soluzione multiuso arricchita con acido ialuronico, indicata per gli occhi sensibili. Rimuove i depositi mucoproteici. Attiva in cinque minuti.

Multipurpose solution enriched with hyaluronic acid, indicated for sensitive eyes. Removes protein deposits. Active in five minutes.

Eco 1 Bipack (360/500ml)

Ideale per tutti i tipi di lenti a contatto morbide. In una unica azione disinfetta, risciacqua e conserva. Rimuove i depositi mucoproteici. Attiva in cinque minuti.

Specific for all types of soft contact lenses, a unique action to disinfection rinse and preserve. Remove protein deposits. Active in five minutes.

Monofase (360ml)

Sistema al perossido monofase con catalizzatore al platino per la deterzione e disinfezione di tutti i tipi di lenti a contatto morbide. Rimuove depositi proteici e lipidici.

System for the neutralization, disinfection and the preservation of all types of soft contact lenses.

Uni-Det (50ml)

Detergente adatto per tutti i tipi di lenti a contatto.

Cleaners solution specific for all types of contact lenses.

Enzima (12 pastiglie)

Pasticche enzimatiche effervescenti per rimuovere i depositi proteici da tutti i tipi di lenti a contatto.

Enzymatic effervescent tablets for all types of contact lenses.

Hard-Care (200ml)

Soluzione unica per tutti i tipi di lenti a contatto rigide e gas permeabili. Conserva, disinfetta ed idrata.

Unique isotonic solution to rinse, disinfect, preserve and moistens all types of R.G.P. contact lenses.

Hyalu Tears (15ml)

Umettante e lubrificante oftalmico a base di acido ialuronico per la prevenzione dei disturbi tipici dei portatori di tutti i tipi di lenti a contatto.

Ophthalmic humectant and lubricant with hyaluronic acid indicated for prevention of typical troubles occurring to wearers of all kinds of contact lenses

Salina (550ml)

Soluzione salina isotonica e tamponata pH 7.2 per il risciacquo di tutti i tipi di lenti a contatto.

Isotonic buffered saline solution, at pH 7.2 to rinse all types of contact lenses.

Gocce Oculari (0,33ml)

Gocce oculari lubrificanti e lenitive a base di acido ialuronico. Venti flaconcini da 0.33 ml.

Soothing and lubricants eye drops based on hyaluronic acid. Twenty vials of 0.33 ml.

NEW PRODUCT

Spray Drop (15ml)

Umettante spray a base di liposomi ed estratti vegetali indicato per occhi sensibili.

Ophthalmic Spray Humectant with liposomes and natural extracts indicated for sensitive eyes.

Ventose piene e forate

Ventose utili alla rimozione sicura delle lenti a contatto.

Suction devices are useful for safe removal of contact lenses.

Contenitori

Pratici contenitori per tutti i tipi di lenti a contatto.

Contact lens cases for all types of contact lenses.

Shirmer Test e Fluorescina

Confezioni da 100 strips.

Pack of 100 strips.

Spray (30 x 24ml)

Kit da 30 spray detergente antiappannante e antistatico per lenti antiriflesso. Prodotto con essenze di erbe naturali.

Kit of 30 spray cleaners, anti-fog, specific for anti-glare lenses. Produced with natural herbs essences.

Trousse

Trial Frame

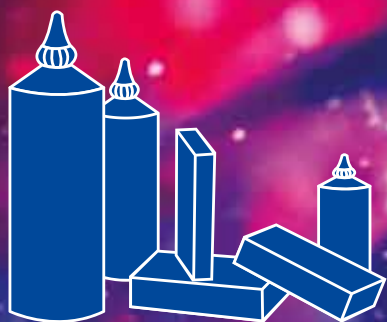

Kit composto da 3 occhiali di prova con tre misure differenti, leggero e particolarmente comodo per chi lo indossa.

Kit of 3 trial frames in different size, lightweight and comfortable.

PER MIGLIORARE LA VISIONE DA LONTANO

In visione binoculare, aggiungere -0.25 o -0.50 nell'occhio dominante. Se la visione risultasse ancora insufficiente, aggiungere -0.25 anche nell'occhio NON dominante.

PER MIGLIORARE LA VISIONE DA VICINO

In visione binoculare, aggiungere +0.25 o +0.50 nell'occhio NON dominante. Se la visione risultasse ancora insufficiente, aggiungere +0.25 anche nell'occhio dominante.

VERIFICARE SEMPRE, IN VISIONE BINOCULARE, IL GIUSTO EQUILIBRIO TRA LONTANO E VICINO.

* Per i pazienti sopra i 66 anni di età considerare la colonna 64-66
